FIRE EQUIPMENT MANUFACTURERS' ASSOCIATION

femalifesafety.org +1 (216) 241-7333

Our Mission: To unite to save lives and protect property through education, awareness, and a layered approach to fire protection that does not rely on any single safeguard.

Our Purpose: A trade association of members dedicated to manufacturing fire protection equipment to serve as the first line of defense against fire in its early stage.

Our Members: Activar Construction Products Group/JL Industries, Amerex Corporation, American Pacific Corporation – Halotron Division, Brooks Equipment, Buckeye Fire Equipment Company, Fire-End & Croker Corporation, Larsen's Manufacturing Company, Mercedes Textiles Limited Potter Roemer Fire Pro, and Wilson & Cousins

FEMA promotes a layered approach to fire protection

Fire Hose, Cabinets, & Valves

Sprinkler Systems

Portable Fire Extinguishers

Smoke & Carbon Monoxide Alarms

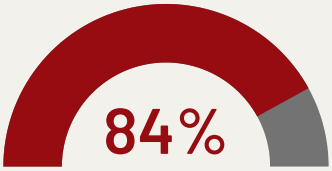

Pre-Engineered Fire Suppression Systems

Advocacy Priorities

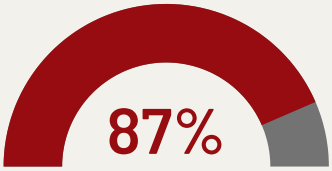

- Ensuring portable fire extinguishers are installed and maintained in government and public facilities in accordance with the national model fire codes;
- Encouraging states to adopt new statewide fire codes that ensure portable fire extinguisher installation in accordance with the national model fire codes, regardless of the presence of sprinklers;
- Educating officials from states, the federal government, and the national model fire codes on the importance of layered fire protection specifications.

Fire Extinguishers Save Lives

Of fires never grew large enough to activate the sprinklers.

Source: 2017 NFPA Study

Of the time portable fire extinguishers are used by a building occupant, they successfully extinguished the fire before the fire department arrived.

Source: The city of Nashville

Of users successfully discharged the extinguisher in the direction of a fire without any prior training.
