Amerex Corporation

ISO 9001 QMS / ISO 14001 EMS / OHSAS 18001-2007

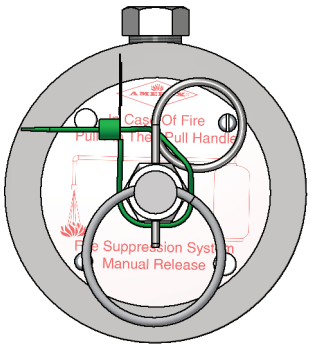

In an effort to provide high quality components, streamline supply, and reduce cost to our customers, a slight design change has been made to the manual pull station for Kitchen Protection and Industrial Systems. There is no change to the overall functionality or installation of the pull station, and the changes will enable a simplified installation process. **This design change has allowed us to provide a price reduction of 3% on KP/IS surface manual pull stations to all customers.**

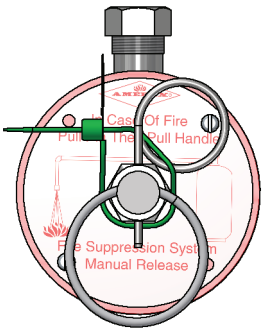

The below table shows the old part numbers versus the active part numbers moving forward.

OBSOLETE PART NO.	REPLACEMENT PART NO.
27195	Replaced by 21481
27196	Replaced by 21481
27197	Replaced by 22116
27198	Replaced by 22116
27199	Replaced by 22117
27200	Replaced by 22117
